

A large, stylized letter 'A' composed of two overlapping triangles. The left triangle is dark gray and the right triangle is a vibrant lime green. The background of the entire page features a dark gray triangle on the left and a lime green triangle on the right, meeting at a central vertical axis.

**WHY  
ALPOLIC?**

EXCEPTIONAL  
PROJECTS DEMAND

## EXCEPTIONAL MATERIALS

There are many manufacturers of metal composite materials on the market, but there is only one ALPOLIC. Only one who stands solidly behind our products with industry-leading warranties that can help protect your investment for 10, 20 or even 30 years. Our commitment to quality, sustainability and our customers is unmatched. There is only one choice for metal composite materials. That's ALPOLIC. Let us help bring your vision to life.

# Why choose ALPOLIC® Materials?

## FEATURES

## BENEFITS

<b>Strongest Warranty</b>	Covers both material AND labor to execute warranty. <i>In Situ</i> is unique to ALPOLIC.
<b>Primed Both Sides of Skin</b>	Inhibits oxidation and white rust that can adversely affect paint and core adhesion.
<b>AAMA 2605 FEVE Paint</b>	Highest performance criteria for architectural paint, exceeding 10 years in south Florida exposure test.
<b>Custom Production: 1,000 sq ft minimum</b>	Provides flexibility in custom colors or custom sizes/cores to give client exactly what they want.
<b>Sizes: 2mm, 3mm, 4mm, 6mm</b>	Widest range of thicknesses to meet application needs.
<b>Widths: 40, 48, 50, 51, 60, 62</b>	Wide range of standard coil widths to optimize yields.
<b>Full Technical Service Staff</b>	Licensed professional engineer and chemist on staff to answer client's questions professionally and quickly.
<b>Squared Sheet</b>	Eliminates the need to have to square one side before fabrication.
<b>Good Side Up or Down</b>	Easier loading onto CNC table.
