

PALLET RETURN PROGRAM

Earn materials credit and help keep pallets out of landfills.

We understand that pallets tend to accumulate in the yards of many of our customers. Not only do they take up space, there's valuable time and resources spent trying to clear them out. ALPOLIC is here to help.

With our Pallet Return Program, customers can return approved, repairable ALPOLIC crates for materials credit.

This green program is a convenient solution that helps support our customers' bottom line and keeps workable pallets from landfills.

Minimum requirements for acceptable pallets:

- Must be an ALPOLIC pallet.
- Crossboards, stringers, and running boards are in good shape.
- A few missing or broken deck boards are okay.

What will not be accepted for credit:

- Non-ALPOLIC pallets.
- Pallets with missing or broken crossboards, stringers, and running boards.
- Pallets that are no longer structurally sound due to decay.

Part of our Operation Encore program, the Pallet Return Program is just another way ALPOLIC is creating value for our customers and supporting our commitment to sustainability.
